Our Committee has constructed all the buildings they had undertaken to construct and in the manner required by the Government. As a matter of fact, the kitchen building is an extra building constructed by us though it was not included in the list of works undertaken by us.

The Twin ward has been duly constructed by us, without shutters as the approved plans did not provide for shutters at all. Hence we cannot be required to pay for the shutters.

Regarding the cement-plastering of the steps, I have been told by the Contractor that on account of the long rainy season here, cement plastering of the steps will be a source of nuisance and danger and hence it is not advisable.

Please excuse the inordinate delay in replying to your letters which was due to various unforseen circumstances which has kept me busy with other matters.
